Git Patcher: Release Notes GP-0.19.0

Tuesday, 2 July 2019   5:33 PM

GP-0.19.0

Minimum Patch: SDEPLOY-30.01.APEXRM
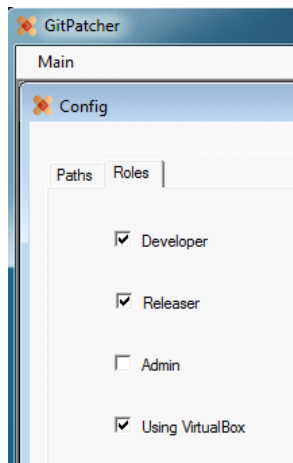

There has been a lot of work done over the last 2 weeks, so I'm really only going to mention the highlights here.

Create New HotFix - draft	26 Jun 2019 17:50	Peter Burgess
Release patches are selected by release branches	26 Jun 2019 13:45	Peter Burgess
Simplify new release workflow	26 Jun 2019 11:38	Peter Burgess
changing workflow again	25 Jun 2019 21:54	Peter Burgess
Release and Hotfix workflows	25 Jun 2019 17:24	Peter Burgess
Trim unchecked nodes from Last Patches tree	25 Jun 2019 9:49	Peter Burgess
CreateRelease wizard	24 Jun 2019 23:01	Peter Burgess
newMajorMinorVersionRelease - Almost done	24 Jun 2019 17:40	Peter Burgess
newMajorMinorVersionRelease - releases branch	24 Jun 2019 11:43	Peter Burgess
More work on draft workflows	23 Jun 2019 22:52	Peter Burgess
Draft Major/Minor Version Release	21 Jun 2019 17:02	Peter Burgess
Mucking around with menus Thinking about creating all-in-one process for + create version bra	17 Jun 2019 22:06	Peter Burgess
Ensure the big 4 git ops are fully recoverable.	17 Jun 2019 17:42	Peter Burgess
master origin/master G-Drive/master Merge branch 'feature/GP-0.18.0'	13 Jun 2019 13:51	peter.a.burges

Roles

Roles can be found on the Config form.
Typical config.

Menus

A lot of functionality has been added in this release, so there has been some menu reorganisation to impose order on all the options.

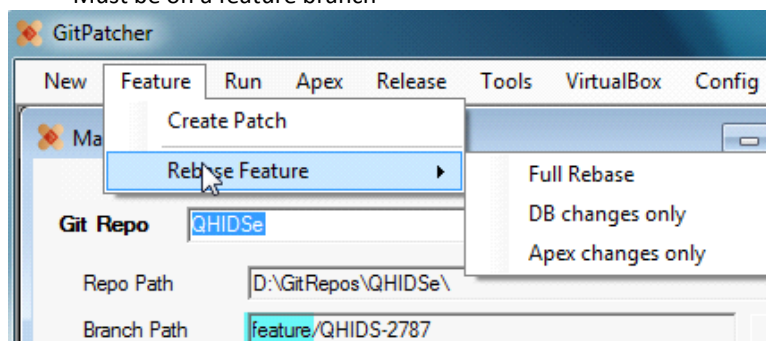

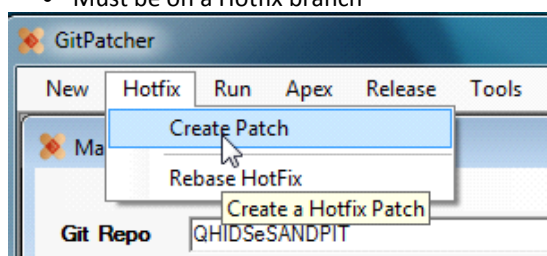

### New

- Create New Stuff

Feature

- Must be on a feature branch

Hotfix

- Must be on a Hotfix branch

## Run

- Run patches

## Apex

- Apex Exports and Imports

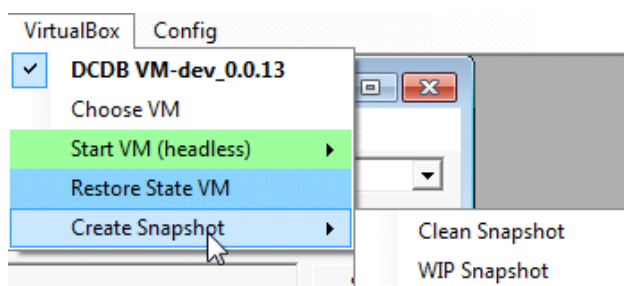

Release

- Full Release Workflows

Tools
- Extra useful stuff

Virtual Box support

Config

- Shortcut to Config form

Config

Workflow Enhancement

Major workflow enhancements cover the implementation of the new One-Flow-GP branching workflow.

These workflows cover

Version Releases

Creation and merge of

- Major Version
- Minor Version
- Patch Version

Hotfixes

Creation of

- HotFix branches
- HotFix patches
- Merge of Hotfix branches
- Rebase of Hotfix patches

Release of App Versions

Release wizard tailored for release to various targets.
